Custom Branded Face Masks

Branded Masks for Your Business

FCC wants to remind everyone that kindness, empathy, and togetherness are important in times like these. Wearing a face mask can look scary and make others nervous, we get it. So we created a **high quality reusable face mask** that allows an organization to brand their product, service or company.

- Administration | Staff
- Public Safety Officials
- Facilities | Athletics Departments
- Capital Campaigns | Fundraisers
- Students | Alumni

The Mask

We produce custom masks branded with your logo/message. Our 3-layer face masks help filter the air and guard against droplets that enter/leave through your mouth and nose, which may reduce the chance of spreading airborne and droplet illnesses. Our masks are machine washable up to 100 times. The 3 layer mask has an outer layer made of cotton/poly twill, a felted poly filter layer and an inner layer made of a breathable and moisture-wicking cotton muslin cloth.

Quantity & Sizes

- Custom colors and designs are available.
- Minimum of 100 masks per orders (unlimited quantities).
- Large & X-Large adult sizes.

Masks Save Lives

The CDC (Center for Disease Control) recommends wearing face coverings whenever going out in public. Masks can be the difference between life or death when it comes to the spread of airborne illness. When worn properly, masks may prevent droplets from both leaving and entering your mouth & nose, potentially preventing the spread of airborne illness, preventing you from getting others sick.

FAQs

● What are these masks made of?

Cotton/poly woven shell, a felted poly filter and a cotton muslin liner for breathability and minimal interior moisture.

● How should I care for my mask?

Wash in cold water on a delicate cycle for as many washes as possible or handwash in warm water. For drying, please air dry only, do not put in dryer.

● How soon will I receive my order?

Depending on the quantity ordered, delivery time ranges between 2 and 3 weeks from the date your order was received.
